VS-Code

The screenshot shows the Visual Studio Code interface. The editor window displays a Python file named `no.3.py` with the following code:

```
1 print("Debit = 80 m")
2 q = 80
3 print("Waktu = 18 menit = 1080 detik")
4 t = 1080
5 v = q * t
6 print("Hasil volume adalah :", str(v))

```

The terminal window on the right shows the output of the script:
